Task: Perhaps no other in event in recent human history has as powerful a visual record as the holocaust. Search the internet for images of the holocaust and construct a slideshow of powerful images. You can use the links above to get started. Look for powerful images not just the easiest ones to find.

You will need to hand in three things, a slideshow of the images and this sheet with references and Annotations and a bibliography in MLA format.

In the table below identify each image you use and include a reference in MLA format (this is not just a reference link). Under the annotation heading provide a brief description of what is happening in the image and why you chose that particular image. 8-12 images is enough as you want to focus on quality not quantity choosing images that are meaningful to yourself and provide depth to your understanding of the events of the holocaust.

German soldiers brutalizing a Jew in Poland.

I chose this photo because the fact that the Germans are laughing shows just how brutal they were and that the Jewish were de-humanized.

A shrunken head of a prisoner, discovered at the Buchenwald camp. In order to terrorize the other prisoners, the SS guards hanged two shrunken heads in the middle of the camp.

German soldiers on the way to Poland. The inscription on the railway car reads: "We are going to Poland to strike at the Jews". On the left, an anti-Semitic drawing of a Jew.

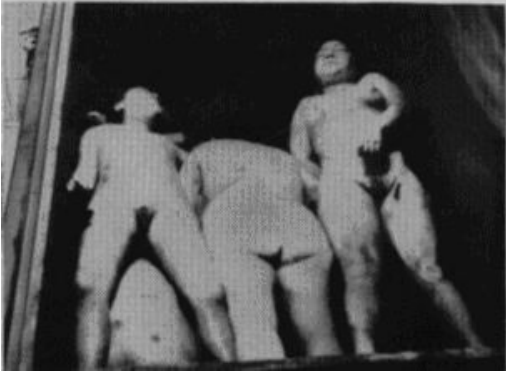

I chose this photo because the light-hearted manner the German soldiers went about advertising the deaths of Millions of people is disturbing to me.

This is a picture of a Jewish woman from Budapest as a victim of starvation and medical experiments at Dachau.

This photo was impactful to me because I have never seen anyone so skinny before. It shows the neglect that the prisoners went through.

A sole survivor among the corpses in a freight railcar transporting Jews from Iassi to Calarasi, Romania.

I chose this image because it shows just how bad the conditions were before the prisoners even got to the camp.
